- Git

EDUCATION

Software Engineering | Georgia Institute of Technology (Atlanta, GA), 2018

Bachelor of Science in Economics, Minor in Real Estate | Georgia State University (Atlanta, GA), 2015

Work Experience

DEVCONNECT

A social media website for connecting software developers around the world.

Developer

Developed the User Interface using React and Redux. The back-end was constructed using Node.js and a non-relational database (MongoDB). The app was deployed with Heroku.

SMART BRAIN

A face detection app where users can upload pictures and have their images scanned for faces.

Developer

Worked with React to build the front-end. Used a machine learning API to help detect faces. Built using Node.js for the server side and used PostgreSQL as the database.

ILOVEMUSIC

A site where users search for their favorite artist and find upcoming concerts, Videos, and Songs.

Developer

Worked with jQuery and Bootstrap to build the front-end. Utilized Spotify, Bandsintown and YouTube API's to retrieve real-time data to the client.

KELLER WILLIAMS REALTY PARTNERS

September 2016 – Present

The largest real estate franchise in the U.S. helping clients buy and sell real estate.

Real Estate Agent

Acquired new clients through cold calling, door knocking and circle prospecting. Worked with clients to help negotiate, inspect and market the purchase or sale of their home.

LIFETIME DEALS LLC

March 2016 – August 2018

An e-commerce store selling home improvement products to customers all over the world.

Owner

Oversaw business operations from sourcing products, handling shipments, branding and budgeting.
